

Chemical High Performance Protective Boilersuit

Product Code	HSCBH	Colour	Green
Weight	N/A	Number of Items	1 Suit
Sump Capacity	N/A	Size	S/M/L/XL/XXL/XXXL

The Chemical Resistant PVC Coverall is a durable, reusable protective suit designed for demanding industrial environments where protection against chemicals, heat and harsh working conditions is essential. Manufactured from robust 360g PVC poly-cotton fabric, it offers excellent resistance to many acids, alkalis and common industrial chemicals, while delivering outstanding tear and abrasion resistance for long-lasting performance.

Designed for enhanced wearer safety, the coverall features flame-resistant and anti-static (FR & AS) properties suitable for applicable ATEX environments, along with high-frequency welded waterproof seams to help prevent liquid ingress. Practical features including reinforced underarm and crotch areas, elasticated cuffs, a helmet-compatible adjustable hood, glove-friendly front zip and protective storm flap provide comfort, durability and reliable protection throughout the working day. Ideal for chemical cleaning, petrochemical processing, oil and gas, heavy industry, tanker operations, tank cleaning, and waste and water treatment applications.

Multiple sizes available (measurements in cm):

Small - 92-99 (Chest) 78-85 (Waist)

Medium - 100-107 (Chest) 86-93 (Waist)

Large - 108-115 (Chest) 94-101 (Waist)

XL - 116-123 (Chest) 102-109 (Waist)

XXL - 124-131 (Chest) 110-117 (Waist)

XXXL - 132-139 (Chest) 118-125 (Waist)
