## ENVIRONMENTAL

### HUG Drive-Over Spill Barrier

Code: HDOS321

HUG Spill Barrier reliably prevents the spread of leaked hazardous substances on the floor eg. warehouses, doorways, halls etc.

Our barriers are made from mechanical and chemical resistant rubber (NBR) which allows them to be traversed repeatedly by forklifts and pallet trucks.

The connecting and corner components make it possible to create a barrier in the required shape and length.

Dimensions: 55mm high
