SAFETY CABINETS FOR THE STORAGE OF FLAMMABLE PRODUCTS

With 90 minutes fire-class certified resistance according to EN14470-1, EN 14727 Norms. Certification as from EN 14470-1 and 14727 Norms.

- Automatic door closure in case the ambient temperature exceeds 47°C (according to market).
- Lock with key and door blockage and feet adjustment level.
- 90 minutes certified valves close the ventilation holes when the temperature exceeds 70°C; one is placed on the roof for extraction, and one on the bottom to guarantee the extraction of heavy vapours.
- Air extraction duct collar 100mm dia. placed on top of the safety cabinet.
- Anti-sparking hinges.
- 3cm thermo-expanding gasket (DIN 1402).
- 3 epoxy coated or stainless steel shelves on stainless steel supports, which are height adjustable.
- Bottom sump with draining grid which allows a bigger storage volume.
- Grounding connection on top of the cabinet to prevent electrostatic charges.

MAINTENANCE ROLLS

Soak up leaks and spills, reduce slips and falls and keep workplaces looking professional

Prevent slips – High absorbent polypropylene soaks up and traps liquids so nothing is left behind: melt blown fine fibres grip floors, even when saturated.

Avoid Trips – 8 sonic-bonded layers form the strongest mat on the market: abrasion-resistant HUG Rolls won't rip, tear, fray or leave fibre residue, even when saturated with liquids.

Keep Floors Dry – Reduce the risk of slips, trips and falls.

Exclusive Technology – Dimple pattern speeds wicking throughout mat: clean-up is quick and easy.

Easy use – Perforated every 25cm – tear off exactly the length you need – reduces waste and saves you money.

MAINTENANCE ROLLS

- Perforated to prevent wastage.
- Heavyweight for maximum absorbency.
- Can be used in roll dispenser stands.
- Dispenser Box also available.

MAINTENANCE SOCKS

- Absorb more than 5Ltrs of fluid per sock.
- The highest and best performing sock on the market.
- Extra thick outer skin for maximum fluid retention.
- Stop spills from spreading.

Tips for using HUG absorbent socks

- Use Socks around machine bases, along drip pans, ledges and any areas where other absorbent may not fit.
- Overlap Socks by 8cm when placing them end-to-end to ensure that liquid does not pass through the connection.
- Shake Socks before placing them to evenly distribute filler and create good surface contact.

CODE	SIZE	ABSORB	QTY	PRICE
HMS105	8cm x 1.2m	110Ltrs	15	£61.74/€74.09
HMS106	8cm x 3m	110Ltrs	6	£61.74/€74.09

MAINTENANCE CUSHIONS/PILLOW

- Attack high-volume leaks and spills.
- Used to absorb in tight spaces.
- Large surface area for soaking up large amounts of liquid.

CODE - DESCRIPTION	SIZE (W X L)	ABSORB	QTY	PRICE
HMC118 - Extra Large	40cm x 50cm	160Ltrs	16	£69.46/€83.35

MINI MARINE BOOM WITH RINGS

Remove the oil from water in your sump, pit, tank or bilge.

- Absorbs petroleum-based liquids without absorbing water.
- Helps reduce bacteria breeding in your tanks.
- Can be incinerated to reduce waste.
- Tie skimmer to grate with a rope (not included).
- Floats even when saturated.

CODE - DESCRIPTION	SIZE	ABS	QTY	PRICE
HOB144 - M/Booms	50cm x 20cm	120Ltrs	10	£174.42/€209.30

BOOMS ENSURE NO HARMFUL LIQUID OR SEDIMENT POLLUTES OUR WATERWAYS

CHEMICAL ABSORBENTS

Our HUG chemical absorbents are yellow in colour, which helps alert workers to spill hazards. The fine fibres are specifically designed to absorb battery acids, caustic solutions, body fluids and aggressive chemicals. The rolls and pads come perforated for easy tear, so you only need to use as much as is necessary.

IN THE EVENT OF A SPILL, ABSORBENTS ALLOW YOU TO EFFECTIVELY CONTAIN & CONTROL THE SPILL IN LESS THE TIME

CLAIM YOUR **FREE** HAND WIPES WITH YOUR NEXT ORDER!

CHEMICAL PADS IN DISPENSER BOX

DRAIN PROTECTION

Drain covers are the perfect solution for keeping spills out of drains. Just put it down when it is needed, and pack it away when the threat is gone. We have a range of rapidly deployable single and multi-use drain covers and drain mats to provide instant security in the event of spills of oil, chemical and other liquids.

POLYURETHANE
RE-USABLE DRAIN COVERS

- High-visibility yellow top layer that withstands repeated use and resists abrasion.
- Tacky bottom layer tightly seals drain opening.
- Flexible: moulds to uneven surfaces and creates a temporary drain seal.
- Add a soft carry bag to protect your cover.

CODE	SIZE	PRICE
HDP169	46 x 46 x 2cm	£81.14/€97.37
HDP170	61 x 61 x 2cm	£149.50/€179.40
HDP171	91 x 91 x 2cm	£237.37/€284.84

PLUG-RUG DRAIN COVERS

- Single-use drain seal protects waterway from liquids.
- Resistant to most common oils and chemicals.
- Remains flexible at low temperatures.
- Can be used as an emergency patch for drums.

CODE	SIZE	QTY	PRICE
HDP175	65 x 45 x 2cm	2	£54.57/€65.49

ASK US ABOUT OUR FULL RANGE OF WORKPLACE MATTING

FLOOR SAFETY AND MATTING

Anti-fatigue mats are specifically designed to reduce leg and back strain for workers who spend a lot of time on their feet. They provide underfoot cushioning to keep workers comfortable, and they promote frequent posture changes to keep blood circulating. This means workers can stay on the job longer without feeling fatigued.

GRP STAIR TREADS

GRP stair treads are constructed from tough durable fibreglass. Their excellent slip resistant surface is achieved by a hard wearing grit surface. They have a 55mm contrasting coloured nosing to meet with building regulation requirements.

CODE	SIZE W X D	MAX DEPTH	PRICE
HHS521	750 x 250mm	345mm	£47.63/€57.15
HHS522	1000 x 250mm	345mm	£59.54/€71.44
HHS523	1500 x 250mm	345mm	£71.44/€85.73
HHS524	3000 x 250mm	345mm	£123.48/€148.18

GRP LANDING COVERS

The GRP landing covers serve the same purpose as stair treads but their additional depths allow most landing areas and top steps to be covered without the need for joints. These also have a 55mm nosing.

CODE	SIZE W X D	PRICE
HHS525	800 x 1200mm	£129.87/€155.85
HHS526	1200 x 1200mm	£121.05/€145.27
HHS527	2400 x 1200mm	£303.85/ €364.62

GRP FLAT SHEETS

The GRP flat sheets which have the same characteristics as GRP stair treads and landing covers, are ideal for walkways, ramps, gangways and factory floors etc.

COLOUR – BLACK WITH YELLOW OR WHITE 55MM NOSING- PLEASE STATE COLOUR WHEN ORDERING.

CODE	SIZE W X D	PRICE

BULK STORAGE

Our bulk storage cabinets are an ideal solution for external storage of IBC's and drums. We can spec and build your store to suit your on-site requirements, and optional flame proof and heating is available.

DUAL PURPOSE BUNDED STORAGE UNITS

OPTIONAL EXTRAS

- Removable galvanised grid shelving.
- Insulation.
- Heating.
- Temperature Control.
- Lighting.
- Fire detection.

STANDARD PAINT FINISHES AVAILABLE:

- RAL 1028 – Yellow
- RAL 3020 – Red
- RAL 5005 – Blue
- RAL 6026 – Green

- Our dual purpose units are designed to store 205 litre drums and 1000 litre IBC's.
- All units are welded for added strength and are constructed from 2mm profiled mild steel sheet over 100 x 50 x 3mm RHS.
- They have a fully welded leak-proof sump over the entire base area to a depth of 220mm and contain removable galvanised grid flooring.
- Other features include high and low level vents, sliding doors which can be padlocked (HST384/A – HST384/B have sliding doors on both long sides) and upper level has support bearers.
- These units comply with the Control of Pollution (Oil storage England) Regulations 2001, The Water Environment (Oil Storage – Scotland) Regulations 2001, EA Guidance Note PPG26, The Health and Safety Executives Guidelines for the Storage of Flammable Liquids HSG5, and also current Health, Safety and Environmental regulations.

Hyde Park Environmental offers basic spill response training courses to ensure that all employees who are required to use spill response kits and equipment are trained to respond correctly to an incident.

On site instruction and practical demonstrations are given, showing the correct procedure to respond to a spill. Once again, this is a further step towards establishing compliance and fulfilling your "due diligence" and Occupational Health and Safety requirements.

There are 3 tiers of Spill Response Training which Hyde Park have to offer.

BRONZE TIER TRAINING | £441

Hyde Park offers our customers a quick product explanation of the different absorbent types and their usage within the workplace environment. This will ensure everyone who may come across a spill incident is aware of the correct product to use.

SILVER TIER TRAINING | £606

This training consists of a product discussion along with a real live scenario DVD of a spill incident happening. It also covers all related cautions and/or how they may arise in the event of an incident. This is more detailed, and staff will find the video more relatable to their own work environment.

GOLD TIER TRAINING | £1,500

Hyde Park Environmental offers a training course for the use of spill kits. In the event of an emergency, staff need to know the correct procedures to ensure proper actions are put in place in the event of spill. Each delegate will be shown the different uses of equipment followed by a short video. Each delegate will receive a certificate of compliance on the completion of a questionnaire.

We can train approximately 1-15 Delegates per course, on your site, which allows them to relate the training to their own working environment. The training course will last approximately 1 - 1½ Hours. The spill kits and various materials will be brought along, and a room with a screen and DVD player is required in order to show the video.

A short practical demonstration will be shown outside the building, so that it builds up a clearer picture for each staff to clean up any spillages as quickly and effectively as possible.

**OUR THREE TIER SYSTEM PROVIDES YOU WITH A CHOICE THAT IS
TAILORED TO YOUR REQUIREMENTS.**

HEAVY DUTY GRIT/SALT BINS

CODE	SIZE	SIZE	
HSP271	Grit/Salt Bin 200L	787x482x787mm	£104.74/€125.69
HSP272	Grit/Salt Bin 400L	1016x482x787mm	£159.86/€191.84

Our Grit bins are manufactured from yellow high-grade polyethylene. An essential tool for being fully prepared for winter weather, ensuring your salt is stored in a neat and tidy place and ensuring it is readily accessible in an emergency. Open top lid for easy access.

PEDESTRIAN SPREADER

CODE	DESCRIPTION	PRICE
HSP646	Heavy Duty High Output 76kg Spreader	£528.10/€633.72
HSP647	Earthway High Output 37kg Spreader	£316.42/€379.70

- High quality spreader designed to handle free flowing ice melt products
- For use with high purity rock salt
- Large capacity corrosion free hopper
- Pneumatic tyres for smooth travel
- Stainless steel flow rate gate with large aperture
- Robust sealed gearbox
- Axle lubrication for extended life
- Spread deflector
- 2 year warranty

Ideal for use in many applications, such as treating paths, walkways, forecourts and other sensitive areas. This could potentially reduce accidents, injury and even possible litigation. Suitable for: Schools, hospitals, sports facilities, petrol stations, shopping centres, public areas, private drives and office complexes.

MOBILE SPILL KARTS

These versatile, robust and durable mobile bins can be used to store grit, salt, sand absorbents, fertilisers and more!

- A mobile unit for multiple applications
- Solid rubber wheels
- Ergonomic handle for ease of use
- Lid can be secured in a vertical position for convenient dispensing / loading

CODE	SIZE (H X W X D)	CAPACITY	WEIGHT	PRICE
HPY355	1070 x 590 x 435 mm	75 Litres	11 Kg	£93.72/€112.46

EMERGENCY RESPONSE STORAGE BOXES

As storage box with 110 Litre capacity specifically designed for rapid emergency response. Whilst ideal for heliport rescue, they can also be used for general storage.

- Stainless steel handles for easy maneuverability
- Plastic toggles, lynch pins, hinge pins and rubber seal supplied as standard
- Laser logo service available
- Lid can be secured in a vertical position for convenient dispensing / loading

CODE	DESCRIPTION	DIMENSIONS (H X W X D)	CAPACITY	WEIGHT	PRICE

ADHESIVE-BACKED FLOOR MATTING

A perfect economical solution to contamination control!

Manufactured from an anti-microbial agent this matting protects against the growth of organisms such as bacteria, mould and mildew. Adhesive coated surface captures dirt and dust particles and is ideal for trapping dirt from wheels and pedestrian foot traffic.

- Disposable layers peel off soiled sheets to reveal a clean layer.
- Adhesive back pads stick directly to floor surface.
- Approved for direct food contact!
