Project in Focus

Challenge

Mutec Mercedes-benz required a compliant, secure solution for drum storage, ensuring effective spill containment and regulatory adherence. The system also needed to offer durability, low maintenance, and seamless integration into existing operations.

Solution

The 4 Drum Spill Pallet provided secure, durable storage for hazardous drums with integrated spill containment. Its lockable cover enhanced protection, improved site safety, and supported full environmental compliance, giving peace of mind for ongoing operations.

Delivery

The unit was delivered efficiently and incorporated seamlessly into the customer's operations. The solution immediately improved containment, streamlined ongoing management, and reinforced protection in safe and compliant drum storage.

Outcome

“Great service, everything in stock and prompt delivery.”
